

## Hser Ner Moo Neighborhood Center

### Our Community

The Hser Ner Moo Center is located inside the South Parc apartment complex in South Salt Lake. The majority of apartment units at South Parc are comprised of refugee families from all parts of the world, including Thailand, Burma, Afghanistan, and Nepal. The various cultures and languages bring rich diversity to the Center where working together transcends language barriers. A resident committee at Hser Ner Moo helps drive the programming and services offered at the Center, which includes a mobile health clinic, English language classes, and high-quality preschool for infants and toddlers.

**Promise Partners focus their efforts on providing the resources families need to thrive and developing a cradle to career pipeline that ensures children are on track to succeed academically.**

### Our Promise

The Hser Ner Moo Community and Welcome Center empowers immigrants and refugees through the process of successful integration by facilitating access to resources, expanding networks and layers of service, creating opportunities for leadership, and by providing relevant, responsive services and support.

### Our Goals

1. Every student achieves on grade level in math and literacy
2. All youth are engaged in positive out-of-school time activities
3. Residents at South Parc have access to high quality ESL instruction
4. Refugee children birth to three are engaged in high quality early learning programming
5. Parents are engaged in their child's development

### Promise Partners

- City of South Salt Lake
- Community Nursing Services
- English Skills Learning Center
- Granite School District
- United Way of Salt Lake
- Utah Partners for Health

*"Hser Ner Moo's partnership with UWSL has helped us think about aligning strategies to best meet the needs of our community. One example is a partnership we have developed with Granite School District's preschool program and the English Skills Learning Center.*

*While parents attend English classes, their infants and toddlers are engaged in high quality preschool programming. Sometimes as partners with the same vision, working collectively in creative ways generates the greatest impact for our youth and families."*
